1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 15, 16 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Keller et al. Figures 5-7 of Keller discloses a faucet spout attachment including a housing 16, a valve 36, a spring 37, a cam 40 and a handle 14-15.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kesselman teaches another spout attachment with internal threads on the body.

4. Claims 17-19, 21 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 1-14 are allowed.
